

Application Modernization Strategy Workshop

Scalability, Resilience and Agility

Evolve Your Applications

Modernize your .NET apps for minimal interruptions by leveraging the latest technologies for scalability, resilience and agility. This ACTS hands-on workshop gets you started modernizing with Microsoft Azure after you've defined your migration roadmap with CAST Highlight.

Under certain circumstances this workshop may be free or subsidized, email CloudModern@actsolution.net to see if you qualify.

Web Apps Modernization Journey

Assess: ACTS works with your team to evaluate and prioritize .NET applications for modernization using CAST Highlight.

Migrate: ACTS' cloud experts show the benefits and drawbacks of redeploying your code, containerizing your application, or lifting-and-shifting with migration tools.

Innovate: Learn to take advantage of proactive and intelligent analytics, design, DevOps practices, or pre-built AI components to offer an enhanced experience.

Workshop Includes Topics Like*

Evaluating and prioritizing .NET applications for modernization

Setting up a proof-of-concept or production pilot

Discussing tools & offers that can help optimize apps

Continuous integration, delivery and testing (CI/CD/CT)

Sample Architecture and Workflow Tooling

*Workshop topics are not limited to these categories

Next Steps

Define your Azure modernization strategy.
